Building a better tomorrow today!

Evaluation Criteria

- ◆ *Effective communication (all team members to provide feedback and participation on-time)*
- ◆ *Reports (to be completed on-time and are intelligible)*
- ◆ *Punctuality and readiness (all deliverables completed and submitted on-time)*
- ◆ *Database normalized and designed to reduce concurrency*
- ◆ *Application development (well documented flow controls and mockups, free of error, completed on-time)*
- ◆ *Modifications and enhancements (properly documented, submitted for review by team, and implemented on-time)*

I. Each member of the team has agreed to meeting three hours a week on Saturdays and 30 minutes to an hour following the Tuesday week lectures. All remaining time is to be held via video and/or voice conference calls and instant messages in 30 to 45 minute increments, at the discretion of the team and team leader. Other forms of communication will also be considered at the discretion of the team and team leader.

II. Each team member has agreed to submitting all individually assigned deliverables on-time, make backup of all code before modifications are made. This is to protect the team from losing any critical work already performed. All team members are committed to delivering a complete functioning application designed to specification.
